

**MULTI-AXIS ISOLATOR AND ASSEMBLY FOR THE SAME**

**Abstract of the Disclosure**

A multi-axis isolator assembly comprises an upper base, a lower base having a first tubular member, first and second isolation layers, and an isolator. First and second isolation layers and isolator are disposed between the upper and lower bases. The first isolation layer and isolator substantially circumscribe the first tubular member of the lower base. The second isolation layer substantially circumscribes the isolator. This abstract is submitted with the understanding that it will not be used to interpret or limit the scope or meaning of the claims. 37 CFR 1.72(b).
